LinkedIn · Portfolio · Behance

Product Designer with commercial experience designing mobile products from research and product discovery to implementation and release. Experienced in user research, product analytics and hypothesis generation, working closely with product, development and marketing teams.

EXPERIENCE

Feb – Jul 2026 · On-site **Product Designer · Zimran**

Finelo — EdTech product for investment and trading education, US market

- Redesigned the web-to-app transition, reducing drop-off and increasing app activation.
- Improved the support flow, increasing completion and reducing subscription cancellations.
- Conducted user interviews in English to inform product hypotheses and identify potential acquisition channels.
- Combined competitor research with analytics to develop product hypotheses; supported A/B testing.
- Designed and shipped mobile features; extended the design system.
- Collaborated with product, engineering and marketing through delivery; reviewed implementation and verified feature behavior in Statsig during QA.
- Wrote UX copy, participated in localization into 15 languages and created marketing assets.

Jun 2025 – Jul 2026 **Product Designer · Bang Bang Education**

Coursework & personal projects

- Analyzed briefs and competitors; conducted user interviews to identify needs, pain points and product hypotheses.
- Designed web and mobile user flows, information architecture, navigation and UI based on research and project goals.
- Built interactive prototypes and conducted usability tests to validate solutions and identify improvements.

Projects

- IVI: Offline content download flow
- Ozon: Mobile home screen redesign
- Zvuk: Music transfer flow
- Cinema Park: Website redesign
- Meal planning service: Website structure and UI design
